

Gem-Palm Springs

PRIVATE VILLA

The uber-contemporary Villa Gem-Palm Springs benefits greatly from its superb Gouverneur location - and it gives as good as it gets. Gem-Palm Springs offers an amazing panorama of the neighboring islands, including Saba; a view of the brilliantly blue ocean, and a spectacular sunset every night. Its sleek design and lush tropical gardens are stunning to behold. The king-bedded master suite is privately situated in the main pavilion and boasts two dressing rooms and a very spacious bath with a double vanity. The second king bedroom suite is across the courtyard on the main level, has a great outdoor shower, and offers an incredible view. Two additional bedroom suites are located in separate areas on the lower level and are twin and king-bedded respectively. The king suite offers an ocean view as well as an underwater view of the pool! All are well-stocked with fluffy robes and towels and a nice selection of toilet articles. A fifth bedroom (king/twin bed) is only suitable for teens or staff. The lower level also encompasses a fitness room and a guest bath. The main pavilion's open floor plan encompasses a chef-worthy kitchen and a living room that functions as a home cinema. French and U.S. satellite are available. Air-conditioned throughout, the minimalist décor complements the villa's modern design and whirling ceiling fans add a tropical touch. An expansive alfresco living room (600 sq ft.) is shaded and protected and offers expansive views of the sea. It's just the spot to enjoy the fiery sunsets. ...*more at* stbarth.com/villas/detail/GEM
