

Golden View

PRIVATE VILLA

Vitet is known for its spectacular views, and the delightful two-bedroom Villa Golden View surpasses guests' expectations. High above Lorient, the panoramic vista encompasses half of the island, and on one of St. Barth many clear days, Anguilla and St. Maarten. The views—and Caribbean sunsets—can be enjoyed to the max, poolside on a deck furnished for dining and relaxing in both sun and shade. The heated infinity pool is just one of Golden View's special features which include beautifully landscaped gardens and a lower-level fitness room that looks out to the sea. The kitchen is sleek and well-equipped, and the spacious living room has an entertainment center. A guest bath is adjacent to the living room.

The first-floor en suite master bedroom claims a corner spot, and two oversized windows frame the view. The en suite guest bedroom is upstairs—accessible via a spiral staircase. It has its own private terrace with a stunning view. Both bedrooms have king beds, walk-in closets and TVs. All TVs are equipped with U.S satellite and Apple TV, and a Sonos music system throughout provides a soundtrack for your vacation.
