

Lumière

PRIVATE VILLA

Following the impact of Hurricane Irma, Lumière's owners saw an opportunity to revamp their beloved luxurious retreat. The compound still encompasses its three traditional "cases" or small houses, now with 21 new and beautiful French doors —one of the home's signature features. Each of the two en suite (queen) bedrooms is privately ensconced in its own "case." The oversized pool sports new glass mosaic tile from Italy and the expansive ipe wood deck has been rebuilt. Extensive renovations include a chic new kitchen from France and LED lighting throughout. The interiors are inspired by island life and complemented with new furniture, art, and accessories sourced from all over the world. Memories are waiting to be made here.
