

Mer Soleil

PRIVATE VILLA

The word "breathtaking" best describes the uber-luxurious Villa Mer Soleil. Everywhere you look, there is an island to behold: Saba, St Kitts, Nevis, St. Maarten - all floating on those brilliantly blue waters. And oh, the sunsets! Mer Soleil has three bedrooms, all with baths en suite and US satellite TV; two are on the main level and the third is on the villa's lower level. The spacious open floor plan encompasses living and dining areas, a guest bath, and a sleek, eco-savvy kitchen with Valcucine cabinetry and Viking appliances. There is every bell and whistle, including two dishwashers. The focal point is a huge L-shaped bar that makes for a great gathering spot for all the villa guests – and then some. There is a big gorgeous heated pool and an even bigger deck with loads of outdoor living – and lounging – space. A charming poolside gazebo with a rectangular glass fire pit is perfect for alfresco lunches and dinners. This is one of Gouverneur's chicest properties.
