

Jasmine

PRIVATE VILLA

Hillside in Gouverneur, the luxurious 4 bedroom Villa Jasmine boasts panoramic sea views and offers the ultimate dream vacation experience. A breezy bi-level compound, the main house encompasses living and dining rooms and a sleek stainless kitchen outfitted for a gourmet cook. A striking extra-long (heated) pool is the focal point of the outdoor living spaces which are surrounded by tropical gardens and include a covered dining terrace. There is a guest bath on this level as well. All four king en suite bedrooms are housed in separate bungalows with private terraces, ocean views and wealth of amenities, like iPod docking stations, satellite TVs, DVD players and mini-bars. Two are on the upper level and two are situated in their own little enclave down the hill from the main villa. Both of the lower-level bedroom bungalows have their own plunge pools; this locale also features an open-air fitness room and a kitchenette. The décor throughout is sophisticated Caribbean-casual done up in a palette of cool whites with pops of ocean-blue color.
