Toiny's rocky coast - which channels that of Brittany - is home to the spectacular 2 bedroom Villa Noé. This architectural gem is ultra-modern in its design and is complemented by a chic minimalist décor with a striking white-on-white color palate. A sleek stainless steel kitchen contains everything a gourmet cook could want or need. Just adjacent to a beautifully appointed living room, it includes a bar for casual dining.

The two French king bedrooms, both with baths en suite and US satellite TV, have access to the terrace via sliders and panoramic views. One of the bedrooms is housed in a separate pavilion and boasts a generously sized dressing room and interesting accent pieces that add to the ambiance. Noé is a true luxury vacation home and offers every amenity. It is fully air-conditioned and its large infinity pool is delightful. The pool level offers a unique cabana for shade and a special spot for dining alfresco and a nice BBQ
