

Wästra

PRIVATE VILLA

High up in the hills of Gustavia, the two bedroom Villa Wästra boasts a nice view of everyone's favorite vista - the island's picture-postcard harbor. The glimpse of the boats on their moorings as you overlook the signature red roof tops is delightful - and memorable. This fully air conditioned penthouse features a spacious open floor plan which includes a wonderful kitchen, a comfortable living area and a nice spot for dining. The two (king) bedrooms are situated on opposite sides of the living space to ensure privacy and the rain-head showers are a great feature. The décor is chic and contemporary throughout. Everything opens onto to the terrace and its sparkling pool - perfect for sunning and relaxing and it is gorgeous at night. Guests love the proximity to "downtown" Gustavia with all its restaurants, sidewalk cafés, shops - divine boulangeries - and nightlife, and that convenience comes with no loss of privacy. An added plus is Wästra's private garage for your car.
